S: STATISTICS AUSTRIA, European System of Social Protection Statistics (ESSPROS). Compiled on 07 December 2021. 1) Sum of employers' social contributions as well as social contributions from protected persons, general government contributions and other receipts (along the lines of the definition of social expenditure transfers from other schemes (rerouted social contributions and other transfers) are not included). - 2) According to ESSPROS these are actual "costs incurred by employers to secure entitlement to social benefits for their employees, former employees and their dependants" and employers' imputed social contributions for civil servants pensions and imputed employers' social contributions. - 3) Payments by individuals and households to social protection schemes in order to obtain or keep the right to receive social benefits. - 4) Costs to general government of running government-controlled non-contributory schemes and financial support provided by general government to other social protection schemes. - 5) Property income and receipts not otherwise attributable. - 6) Social contributions rerouted from other schemes (payments made by a social protection scheme to another scheme in order to maintain or accrue the rights to social protection) and other transfers (unrequited contributions made by one scheme, e.g. to reduce the deficit of another).
