Vienna, 2019-12-30 – The industrial producer price index, IPPI 2015, reached 102.4 points in November 2019, representing a price decrease of 1.1% compared to November 2018, as Statistics Austria reports. In October and September 2019, the annual rates of change had been -1.5% and -1.1%, respectively. The declining price trend for industrial products continues. Compared to October 2019, the index went up by 0.2%.

The decrease of the industrial producer price index in November 2019 (-1.1%) was mainly caused by low prices in the energy sector (-4.9%) and for intermediate goods (-1.5%). The prices for capital goods rose by 1.1% in November 2019 and those for consumer goods by 1.6%.
