Press release: 12.528-119/21

Number of deaths continues to decrease

Vienna, 2021-05-27 – According to preliminary results by Statistics Austria, 1 554 people died in Austria in calendar week 19 (from 10 to 16 May 2021), which were 74 fewer deaths than in the previous week (1 628 people died in calendar week 18). The number of deaths decreased for the fourth consecutive week and is now 7% above the five-year average (2016–2020) for calendar week 19.

Further information on [deaths](#) can be found on our website, where an interactive web application – [the Atlas of Deaths](#) – also graphically illustrates the development and regional distribution. Detailed results can be found in Statistics Austria's [open data repository](#).
