Current challenges for SBR’s

..and how to tackle them
Comparable statistics....
Consistent....
Coherent...
Challenges

- Implementing an SBR as THE backbone for all business statistics
- Use of administrative data and alignment administrative world and statistical world as key features of SBR
- Introduction of the Enterprise (and Enterprise Group) concept within national SBRs
- To boldly go where no statistician has gone before...
How to tackle

– Step by step

– Develop an integrated architecture and make an operational design (data, processes, organisation)

– Prepare for change....
