Press release: 12.733-031/22

Number of deaths end of January on similar level as before the pandemic

Vienna, 2022-02-10 – According to preliminary results by Statistics Austria, a total of 1 761 persons died in the fourth calendar week of 2022 (24 to 30 January 2022), which is 55 less than in the previous week. The number of deaths is now 10% below the number of calendar week 4 of 2021 (1 950 deaths) and on a similar level as the five-year average for the same calendar week of the years before the start of the Corona pandemic, which is 1 743 deaths.

Further information on [deaths](#) can be found on our website, where an interactive web application – [the Atlas of Deaths](#) – also graphically illustrates the development and regional distribution. Detailed results can be found in Statistics Austria's [open data repository](#).
