

Press release: 12.946-244/22

Industrial producer prices increased by 18.4 % in October 2022

Price momentum slowed down

Vienna, 2022-11-30 – The industrial producer price index, IPPI 2021, reached 124.7 points in October 2022, representing a price increase of 18.4 % compared to October 2021, as Statistics Austria reports. In September and August 2022, the annual rate of change amounted to +22.1 % and +21.3 %, respectively. Thus, price momentum slowed down in October 2022.

The increase of the industrial producer price index in October 2022 (+18.4 %) was mainly caused by high prices in the energy sector (+48.8 %). The prices for intermediate goods went up by 11.6 % compared to October 2021. Prices for consumer goods rose by 8.0 %, those for capital goods increased by 4.6 %.

Between September and October 2022, the industrial producer price index remained stable.
