Pressemitteilung: 14 024-217/25

More than 12 million nights spent in September 2025

Second strongest September to date; already 128 million nights spent since the beginning of the year

Vienna, 2025-10-29 – According to preliminary results from Statistics Austria, 12.18 million nights spent were reported in Austrian accommodation establishments in September 2025. This is 7.2% more than in September of the previous year, placing the total of nights spent just below the record figure of 2023 (12.21 million). A total of 128.28 million nights spent were registered between January and September 2025.

„Austrian tourism delivered strong figures also in the penultimate month of the summer season: Compared to September of the previous year, overnight stays in hotels, guesthouses, and vacation apartments across Austria rose by 7.2% to 12.18 million. This puts September 2025 just below the record figure of September 2023. The current 2025 summer season is also showing a positive balance, with an increase of 2.1% compared to the previous year. Only in 1980 and 1981 were more nights spent recorded between May and September," says Manuela Lenk, Director General of Statistics Austria.

September 2025 at 12.18 million nights spent

In **September 2025**, the number of **nights spent** in Austrian accommodation establishments reached 12.18 million. This is 7.2% more than in September 2024 (11.37 million). The majority of overnight stays (71.0 %) were attributable to guests from abroad (8.65 million), which rose by 8.2 % compared to the previous year (8.00 million). Nights spent by domestic guests rose by 4.9 % to 3.53 million. The number of **guest arrivals** rose by 7.4 % to 4.09 million compared to the previous year, of which 2.74 million came from abroad and 1.34 million from Austria.

Summer season 2025 to date achieves 74.10 million nights spent

In the **summer season 2025 to date (May to September**), a total of 74.10 million **nights spent** were reported in Austrian accommodation establishments, which is 2.1 % more than in the same period last year, thus only slightly below the previous record in 1980 (74.43 million) and 1981 (74.40 million). Nights spent by guests from abroad rose to 53.25 million (+2.9 %), while guests from Austria accounted for 20.85 million nights spent, marginally more than in the same period last year (+0.4%). The number of **guest arrivals** grew to a total of 23.68 million (+2.4%), of which 16.26 million were guests from abroad (+3.4%) and 7.42 million were from Austria (+0.4%).

128.28 million nights spent in the calendar year to date

A total of 128.28 million nights spent were recorded between January and September 2025, reflecting an increase of 1.0% compared to the same period last year. Guests from abroad accounted for 95.75 million nights spent (+1.2%), while domestic guests accounted for 32.53 million (+0.4%). The most important source markets were Germany (48.61 million nights spent), the Netherlands (9.72 million), Switzerland and Liechtenstein (3.46 million) and Czechia (3.42 million).

More detailed results and further information on accommodation statistics can be found on our website under Arrivals & overnight stays

Information on methodology, definitions: Within the scope of the monthly overnight statistics, the arrivals and nights spent are provided by rented tourist accommodation establishments in communities with more than 1 000 nights spent per year. Thus, of the 2 092 Austrian communities, 1 587 reporting communities transmit data to Statistics Austria monthly. The survey units are commercial and private tourist accommodation establishments, which transmit their data to the relevant reporting community. The preliminary data includes all reports received by Statistics Austria by the 15th day after the end of the reporting month. Any late reports and corrections are taken into account for the final data by the 30th day after the end of the reporting month. For comparisons with the previous year, the current monthly data are used with the values for the corresponding reference reporting communities in the same month of the previous year.

For further information related to methodology see Standard documentation related to accommodation statistics (in German only).

Statistics Austria is the central organisation for official data and statistics on society, the economy, the state and the environment. As a national statistical institute, it is committed to the statutory principles of independence, impartiality and objectivity. Statistics Austria is headed by Manuela Lenk, Director General Statistics, and Franz Haslauer, Director General Finance.
