

## Social expenditure-to-GDP ratio 1980 to 2019

Year	Social expenditure-to-GDP ratio <sup>1)</sup> in %	Social expenditure <sup>2)</sup>		Gross domestic product (GDP) <sup>3)</sup>	
		Mio. Euro	Annual percentage change	Mio. Euro	Annual percentage change
1980	25,9	19.808	.	76.359	.
1985	26,6	27.496	.	103.258	.
1990	26,1	35.505	.	136.135	.
1995	28,9	50.979	5,0	176.609	.
2000	27,9	59.678	3,1	213.606	4,8
2005	28,0	71.060	3,5	254.075	4,8
2006	27,5	73.769	3,8	267.824	5,4
2007	27,0	76.718	4,0	283.978	6,0
2008	27,6	81.004	5,6	293.762	3,4
2009	29,6	85.162	5,1	288.044	-1,9
2010	29,6	87.647	2,9	295.897	2,7
2011	28,8	89.406	2,0	310.129	4,8
2012	29,2	92.925	3,9	318.653	2,7
2013	29,6	96.019	3,3	323.910	1,6
2014	29,8	99.303	3,4	333.146	2,9
2015	29,9	102.814	3,5	344.269	3,3
2016	29,9	106.760	3,8	357.608	3,9
2017	29,4	108.683	1,8	369.341	3,3
2018	29,2	112.449	3,5	385.362	4,3
2019	29,3	116.627	3,7	397.575	3,2

S: STATISTICS AUSTRIA, European System of Social Protection Statistics (ESSPROS). Compiled on 16 November 2020. - 1) Share of social expenditure in GDP. - 2) Calculated according to ESSPROS. Social expenditure consists of expenditure for social benefits as well as administration costs and other expenditure not attributable elsewhere, however excluding transfers to other schemes (rerouted social contributions and other transfers). - 3) 1980-1994: Gross domestic product (GDP) at nominal values according to ESA 1995, National Accounts, March 2014; from 1995: Gross domestic product (GDP) at nominal values according to ESA 2010, National Accounts, September 2020.
