

<b>Short term indicators in industries and construction 2019 (Basis 2015), ÖNACE 2008</b>				
		Total (B-F)	Industries (B-E)	Construction (F)
Production Index <sup>1)</sup> EU- harm. working day adjusted	Index	115,4	113,2	123,1
	t/t-1 in % <sup>*)</sup>	1,7	0,4	5,8
Turnover index unadjusted	Index	117,5	114,6	138,0
	t/t-1 in % <sup>*)</sup>	0,3	-1,2	10,0
Index of persons employed unadjusted	Index	108,8	107,5	113,3
	t/t-1 in % <sup>*)</sup>	2,3	1,4	5,1
Index of hours worked unadjusted	Index	107,4	105,9	112,5
	t/t-1 in % <sup>*)</sup>	1,7	0,8	5,0
Index of gross wages and salaries unadjusted	Index	118,1	116,8	123,0
	t/t-1 in % <sup>*)</sup>	4,8	3,9	8,4
New orders index <sup>2)</sup> unadjusted	Index	122,5	119,6	132,6
	t/t-1 in % <sup>*)</sup>	-1,5	-2,1	0,3

S: STATISTICS AUSTRIA, compiled on 25 September 2019  
1) For the working-day adjusted series, there may be slight (methodologically justified) deviations to the entire time series for each new reporting month as a result of EU-harmonised adjustment; 2) Following European guidelines, calculation of the new orders index comprises only certain order-orientated economic branches in industries and construction (ÖNACE Sections C – Manufacturing and F – Construction), therefore column Total refers to ÖNACE C+F and column Industries refers to ÖNACE C;  
\*) Percentage change to the previous year.
