

## Data Use Agreement Wealth in Time Survey 2008/09 microdata

### Terms of use for data from the Wealth in Time Survey 2008/09<sup>1</sup>

1. The data is made available by STATISTICS AUSTRIA for the duration of the specified project<sup>2</sup> and the specified persons (data users) at no charge. Data use ends upon termination of the project or if the data user withdraws from the project.
2. The data may only be used for scientific research purposes. Use for commercial or any other economic purposes is not permitted; where necessary, a separate agreement thereon must be concluded.
3. Written notification of any extension of data use in terms of duration, for other research activities or other authorised data users must be submitted unsolicited to [sonja.ghassemi-boenisch@statistik.gv.at](mailto:sonja.ghassemi-boenisch@statistik.gv.at). Any new or amended data use agreement is valid only after written consent has been obtained from STATISTICS AUSTRIA.
4. The applicant is responsible for notifying any further data users of the Terms of Use and for ensuring that such data users comply with said Terms.
5. The data may not be disclosed to any other natural or legal persons, whether for a charge or free of charge.
6. STATISTICS AUSTRIA does not assume any liability or guarantee for the consequences of delays in the distribution of products, for inaccuracies that occur during collection and processing of the data or for any direct or indirect damage arising from direct or indirect use of the data. Copies of the information contained in the products or any other reference to the data must contain the following acknowledgement of the source: "STATISTICS AUSTRIA, *Wealth in Time Survey 2008/09 (financed by BMLFUW and Eurostat)*".
7. The data user undertakes only to publish results if statistical care is maintained. Results for regional units that are smaller than NUTS 1 may only be published if the range of statistical variation is taken into account. Results based on low case numbers (cell containing fewer than or equal to 30 cases) must be identified. No re-anonymisation procedures may be carried out and no individual data sets may be published. The data may not be merged with other non-anonymised personal or household data.
8. The results obtained from the Wealth in Time Survey 2008/09 and publications relating thereto must be made available free of charge to STATISTICS AUSTRIA. Said bodies must be informed by e-mail, to be sent to [sonja.ghassemi-boenisch@statistik.gv.at](mailto:sonja.ghassemi-boenisch@statistik.gv.at), and must also be forwarded an electronic specimen copy. Upon request, two copies in writing of the research work carried out using the data must be forwarded free of charge to STATISTICS AUSTRIA.
9. STATISTICS AUSTRIA is entitled to revoke the usage rights at any time. Any violation of these Terms of Use will result in exclusion from further use of the data.

---

<sup>1</sup> The Time Use Survey 2008/09 was conducted by Statistics Austria on behalf of the Federal Chancellery/Federal Minister for Women and Public Services.

<sup>2</sup> STATISTICS AUSTRIA will electronically inform the contracting entity of the Time Use Survey of any data use agreement at the time that the data use agreement is concluded.
