S: STATISTICS AUSTRIA, Register-based Labour Market Statistics 2018. Compiled on 03 August 2020. SW: Swapping. For data privacy protection reasons, the statistical disclosure control method of "Target Swapping" has been used on a part of the data. Therefore, in particular for cell values <= 5, no reliable assertions can be made. - 1) The "status in employment" of their previous employment is assigned to temporary absent persons. - 2) Includes employees with unknown status in employment, frontier workers without Austrian social insurance, as well as persons employed according to the DLSG. - 3) Includes temporarily absent self-employed persons with unknown previous status in employment. - 4) Mainly derived on the basis of deterministic rules.
