### **Number of deaths increased mid-April**

**Vienna**, 2021-04-29 – According to preliminary results by Statistics Austria, 1 707 people died in Austria in calendar week 15 (from 12 to 18 April 2021). This is an increase from the previous week, when 1 662 people died. Currently, the number of death is 7.2% above the five-year average (2016–2020) for calendar week 15.

Further information on [deaths](#) can be found on our website, where an interactive web application – [the Atlas of Deaths](#) – also graphically illustrates the development and regional distribution. Detailed results can be found in Statistics Austria's [open data repository](#).
