Fees

A fixed basic amount of €364 will be charged per order to cover consultancy, processing and billing costs. Total cost consist of this fixed basic amount and the costs for the data itself (depending on the number of polygons and characteristics). Higher costs may arise due to additional expenditure of time and effort.

A surcharge of 40% (on data costs) according to the current charging structure for acquisition shall be paid for usage of the data under “commercial use excluding resale”, a surcharge of 400% for “commercial use with resale”.

Confidentiality/Data Protection

For polygons not sufficiently populated the characteristics are suppressed. The data protection threshold depends on the type data package.

- **Population:** objects and characteristics relating to the resident population are released only if at least 31 persons with main residence (resident population) and four buildings are registered in one polygon (households and families need additionally at least 4 registered households and families resp.).
- **Buildings and dwellings:** objects and characteristics relating to buildings or dwellings are released only if at least 31 persons with main residence (resident population) as well as four buildings and four dwellings are registered in one polygon.
- **Commuters (place of residence):** objects and characteristics relating to commuters are released only if at least 31 persons with main residence (resident population) and four buildings are registered in one polygon.
- **Commuters (destination):** objects and characteristics are released only if at least 31 in-commuters and at least 3 local units of employment are registered in one polygon.
- **Local Units:** objects and characteristics relating to local units are released only if at least 3 local units and at least 31 employed persons are registered in one polygon.
- **Employed persons:** objects and characteristics relating to employed persons are released only if at least 31 employed persons and at least 3 local units are registered in one polygon.
